JAIPUR: Prof Mohan Manubhai Trivedi of department of electrical and computer engineering, University of California, San Diego, was conferred with the Prof LK Maheshwari Distinguished Alumnus Award at the Birla Institute of Technology and Science, Pilani, for his contribution to the field of electrical and instrumentation engineering. The award is presented once in two years by the Prof LK Maheshwari Foundation, which invites nominations from the alumni of BITS-Pilani working in the areas of Electrical and Electronics Engineering and Instrumentation worldwide. The foundation was established in 2010 to promote the cause of education and research in the field.
