

BITS Pilani to host Open Day on November 23

NT KURIOCITY

BITS Pilani is celebrating 20 years of its K K Birla Goa Campus by hosting an Open Day on November 23 from 9 a.m. to 5 p.m. The event will showcase research and projects from the campus's engineering, sciences, and humanities and social sciences departments. Visitors can explore various exhibits, including posters, models, demonstrations, and prototypes.

During the Open Day, visitors can learn about biological systems, the chemistry of colours and fluorescence, the history of mathematics, and watch fun physics demonstrations. There

will also be displays of robotic arms, car simulators, spiderbots, four-legged robots, 8-bit computers, and snake bots.

Other activities include robot demonstrations, design analysis software displays, and a violin performance. Visitors can also tour labs such as the Climate Change Lab, Sea Traffic Lab, and Media Lab.

Student clubs, including SEDS Celestia (astronomy), Project Einsat (satellite), Society of Automotive Engineers, Aerodynamics Club, Electronics and Robotics Club, and Project Kratos (Mars rovers), will also present their projects and innovations. Register by November 20.
