**Q.1** Adaptation talks about the picking up of the incidents to best capture the setting of the story. With reference to your movie, pick up any three scenes that best describe the setting and analyse why those three scenes were selected. Which aspects of setting were taken care of to strengthen the story? **(15 M)**

**Q.2** There are some situations where the same information is processed through different/multiple points of view. Identify one scene from your movie that shows multiple points of view and exemplify how that scene is seen through the eyes of different characters. **(15M)**

**Q.3** Lighting establishes certain aspects of character as well as theme. State how the character is shown at one of the weak moments in his/her life. Analyse the lighting and its effect on the representation of the moment. Pick up only one scene. Mention your movie, name of the character, timing and heading of the scene. **(10M)**
