

BIRLA INSTITUTE OF TECHNOLOGY AND SCIENCE PILANI- K.K.
BIRLA GOA CAMPUS
SEMESTER II: 2022-2023
Comprehensive Examination (Closed Book)
Introduction to Social Psychology (HSS F372)

Part B

16-05-23 (02:00pm-05:00pm)

Total Marks: 25

Instructions:

1. Answers using concepts from outside the syllabus of this course, even if correct, will not fetch marks.
2. **Please avoid unnecessary elaboration of concepts and repetition of same explanation with different jargons and statements.**
3. **Please remember that your instructor can understand only what you write, not what you mean.**
4. Also, using the same examples from the lecture slides, even if they are correct, may fetch you average marks.
5. A good answer is expected to have new example/s.
6. **Write complete sentences.**
7. Make sure you revise your answers both for correctness and language.
8. **Mobile phone, or any electronic gadgets are not allowed during exam.**

All the best!

Q1. Explain how Stanley Milgram established the evidence for the “obedience” through his “obedience to authority” experiments [Max.350 words]. Discuss the ethical concerns related to his experiments [Max 100 words] . [10+5]

Q2. You are leading a project team of nine individuals. The team members are from different cultural context. As leader you want to prevent occurrence of “social loafing”, “groupthink”, “deindividuation”, “intra-group conflict” and promote healthy work environment. Therefore, you decided to develop some strategies to handle the afore mentioned situations. Based on the knowledge gained on this course, develop 5-10 (at least one for each situation) preventive strategies that can be implemented in a diverse group like yours. Provide justifications for each strategy. [10] [150-350 words]
